

Hello there, Kuro vi Lolitania here~!

This chapter is an extra chapter that's not in the tankoubon but only in magazine and that's why this said chapter 44 in the title in page 2 (I do not count this page BTW). THERE WILL BE ANOTHER CHAPTER TOO. Just think of these 2 chapters in between chapter 44 and 45 of our previous releases.

I would like to apologize for the low quality as the RAW is not that good as well. You might see some page has images from another page printed on it like you can see in page 4 behind Rin. I'm a shitty redrawer but don't blame me! My main job is typesetter. I can only do basic cleaning! Sometimes translating too, from my language to English which made some people mad lol.

Anyway that's all, oh btw I play FGO the NA version and just rolled Tamamo no Mae with over 200 Quartz! AHAHAHA NOW I NEED TO SPEND \$\$\$ FOR JACK THE RIPPER! FUCK ME!

Sumz pls gimme  
google play credit to buy quartz
